OTHER WINES

BODEGAS VERDÚÑEZ

SOIL:

Central inland area with the unique Mediterranean Climate, combining dry summers with cold winters and dry wind. The vineyard is located at 722 meters above sea level (chalky, shallow soils).

WINEMAKING:

During the growing season, grapes develop elegant aromas and flavours until ripe, when they are picked up from the vine. Once in the winery, grapes are pressed to obtain the must, which is poured into soaking tanks. Then, the alcoholic fermentation begins, transforming sugar into alcohol. Once finished, the wine is filtered, mixed with citrus juices and cinnamon and bottled.

TASTING NOTES:

This is a red wine produced with high quality grapes.

- **SIGHT:** Intense red grape colour.
- **AROMA:** Sweet aroma of fresh notes of citrus fruit and cinnamon.
- **TASTE:** Sweet and rich taste with notes of red wine mixed hints of apple, citrus and tropical fruits, as well as a touch of cinnamon.

CONSUMPTION ADVICE:

Traditional Spanish refreshment to be consumed before or after the meal. It matches with salads, rices and light dishes.

SERVING TEMPERATURE:

Best served between 6° and 8°C.

ALCOHOL VOLUME:

8%
